Profile

I am an ambitious student pursuing a degree in Computer Science and Artificial Intelligence from Cairo University. With a strong passion for technology.

Proficient in a range of programming languages. Alongside my technical skills, I am a problem solver with critical and creative thinking abilities. Confident and adaptable, I approach challenges with a positive mindset and strive for continuous improvement.

In addition to my academic pursuits, I have dedicated time to enhancing my professional skills through various certifications. These include managing as a coach, leading teams, project management, and inclusive leadership.

With a commitment to lifelong learning and a passion for growth, I am eager to leverage my skills and knowledge to make a meaningful impact in the world of technology.

Education

2021/10 – present *Faculty of Computer Science and Artificial Intelligence - Cairo University*
Giza, Egypt

Languages

Arabic	English
Native	Intermediate

Organizations

2019/06 – 2022/11 **Resala Charity**
Volunteer
I have volunteered for an extended period at Resala Association for Charity, specifically in the Ashbal activity. This experience has been invaluable, teaching me essential skills such as empathy, compassion, and effective leadership. Serving as a leader within the group has further honed my ability to guide and motivate others.

Professional Experience

2022/08 – 2022/09 **IT Manager (Internship)**
Giza *Misr Insurance*
